

I am writing to request continued support for K-LOVE radios station. I understand that the FCC is expanding LPFM which might displace my capability to hear K-LOVE in my area. We listen to K-LOVE everyday and it has a significant positive impact on my and my wife's life and particularly our children. The community would sorely miss K-LOVE if this initiative were to force it off the air. There are other Christian radio stations in the area, but they do not serve the same mix of contemporary songs and prayer. God works through K-LOVE and the Tri-Cities WA needs God to continue working here. Thank you.
